## trustea Sustainable Tea Foundation

For feedback, further information and suggestions please write under the tab "Joining as certification body" in the link <a href="https://www.trusteacms.in/feedback">https://www.trusteacms.in/feedback</a> Issue date - 2 Jan '24

Certification Body (CB) audits by accreditation bodies are crucial for maintaining the integrity and credibility of industry standards and certifications. These audits ensure that certification bodies operate according to established guidelines, maintaining high levels of competency, impartiality, and consistency.

By fostering trust among consumers, businesses, and regulators, CB audits guarantee that certifications are reliable and prevent malpractices. Additionally, they drive continuous improvement within certification bodies by identifying areas for enhancement and encouraging the adoption of best practices.
